

# Material Safety Data Sheet (MSDS)

Product	Kixx Geartec GL-5 80W-90	

Team	Date of first preparation	Date of last revision	<b>Revision Number</b>
Finished Lubricants	2012-11-30	2016-02-23	2
Development & Technology Team			

# 1. Chemical Product and Company Information

1) Product: Kixx Geartec GL-5 80W-90

2) Recommended use of the chemical and restrictions on use

O Recommended use: Lubricants, Automotive Gear Oil

O Restrictions on use: No data

3) Manufacture/Supplier information

O Supply company: GS Caltex Corporation

O Address: Nonhyeon-ro 508(Yeoksam-dong), Gangnam-gu, Seoul, South Korea

○ Information service or emergency call: 02-2005-6841~8

O Department in charge: Finished Lubricants Development & Technology Team

# 2. Hazards Identification

- 1) Classification of the substance or mixture
  - Not hazardous
- 2) GHS labels, including precautionary statements
  - Symbol : No symbol
  - O Signal word: No signal word
  - O Hazard statement

Not classified under GHS criteria

- O Precautionary statement
  - Prevention

No precautionary phrases

- Response

No precautionary phrases

- Storage

No precautionary phrases

- Disposal

No precautionary phrases

## 3) Other hazards which do not result in classification

NFPA Component	Health	Fire	Reactivity
1. Distillates, Hydrotreated Heavy Paraffinic	0	1	0
2. Residual oils (petroleum), solvent- dewaxed	1	1	0
3. Additive mixture (S1)	1	1	0
4. Additive mixture (S2)	2	2	0

# 3. Composition and Information on Ingredients

Component	Synonyms	CAS No.	Content(%)
Distillates, Hydrotreated Heavy     Paraffinic	Hydrotreated (severe) heavy paraffinic distillate	64742-54-7	60 ~ 65
2. Residual oils (petroleum), solvent-	Mineral oil	64742-62-7	25 ~ 30
3. Additive mixture (S1)	Not Applicable	Not Determined	5 ~ 10
4. Additive mixture (S2)	Not Applicable	Not Determined	1 ~ 5

## 4. First Aid Measures

#### 1) Eye contact:

- Wash eyes thoroughly with plenty of water for at least 20 minutes.

## 2) Skin contact:

- Remove contaminated clothing and wash skin with plenty of soap and water.

Flush with plenty of water for 15 minutes.

Seek medical attention if ill effect or irritation develops.

## 3) Inhalation:

- If overcome by exposure, remove person to fresh air immediately.
- Give oxygen or artificial respiration as needed.
- Obtain emergency medical attention. Prompt action is essential.

## 4) Ingestion:

- Do not induce vomiting. Obtain emergency medical attention. Prompt action is essential.
- 5) Most important symptoms/effects, acute and delayed:
  - May cause slight eye and skin irritation. Not expected to be a sensitizer.
- 6) First-aid treatment and information on medical doctors:
  - Treat symptomatically.

Treatment of overexposure should be directed at the control of symptoms

## 5. Fire Fighting Measures

1) Recommanded(or prohibited) extinguishing r	g media
---	---------

- O Recommanded extinguishing media:
- Dry chemicals, CO2, water spray, fire fighting foam
- O Prohibited extinguishing media:
- High pressure water shoot
- O Large fire:
- fire fighting foam or water spray

### 2) Specific hazard from chemical material

- O Toxicant from combustion: Carbon oxides
- O Fire and Explosion Hazards: Slight fire risk

### 3) Extinguishment:

If it is not dangerous, remove containers from fire areas.

Make hills for further treatment.

avoid Inhalation of material oneself or combustion generation material

Stand against the wind and avoid lower zone.

## 6. Accidental Release Measures

1) Necessary actions to protect human health:

If it is not dangerous, stop release safely, do so.

Keep away from water supply facilities and sewage.

Avoid inhalation of materials or combustion products

Avoid heat, flame, spark, and other ignition sources.

#### 2) Necessary actions to protect the environment

- May contaminate water supplies/pollute public waters. Evacuate/limit access.

Equip responders with proper protection.

Prevent flow to sewer/public waters. Stop release. Notify fire and environmental authorities.

Restrict water use for cleanup.

#### 3) Purification and removal methods

Small leak: Only authorized person can access to the hazardous and restricted areas.

Collect spills with proper containers to treat them.

Absorb spills with sand and other non-combustible materials.

Carge leak : No data

## 7. Handling and Stroage

1) Safety handling:

Avoid contact with skin. Use proper bonding and/or grounding procedures.

Prevent small spills and leakage to avoid slip hazard.

Material can accumulate static charges which may cause an electrical spark (ignition source).

2) Stroage:

Stroage in closed containers.
Stroage in cool and dry areas.
Ventilation keeps it in a region
Keep away from prohibited materials for mixing.

# 8. Exposure Control and Personal Protection

respirator

Eyes protection :

Α.	Exposure limits and biological exposure limits of chemical
1)	Distillates, Hydrotreated Heavy Paraffinic  ACGIH: TWA: No data STEL: No data  NIOSH: TWA: No data STEL: No data  STEL: No data  O Biological exposure limits: No data
2)	Residual oils (petroleum), solvent-dewaxed  ACGIH: TWA: No data  STEL: No data  NIOSH: TWA: No data  STEL: No data  STEL: No data  O Biological exposure limits: No data
3)	Additive mixture (S1)
-,	○ ACGIH : No data
	○ Biological exposure limits : No data
4)	Additive mixture (S2)
В.	Engineering management:
	Ventilation equipment should be explosion-proof if explosive concentrations of dust, vapor or fume are present. Install local ventilation system. Comply with limits.
C.	Personal protection equipment:  O Respiratory protection:  If engineering controls do not maintain airborne contaminant concentrations at a level which is adequate to protect worker health, an approved respirator may be appropriate.  Respirator selection, use, and maintenance must be in accordance with regulatory requirements, if applicable. Types of respirators to be considered for this material include: Half-face filter

Safety glasses or goggles are recommended for the eyes protection from dusts or mists. A business proprietor should install eyes washing facilities near working areas to protect worker's eyes for emergency.

O Hands protection :

Use proper chemical resistant gloves.

O Human body protection:

Use proper chemical resistant clothes.

## 9. Physical and Chemical Properties

1) Appearance: Clear, light brown liquid

2) Odor: a specific smell of Hydrocarbon

3) Odor threshold: No data

4) pH: No data

5) Melting point/freezing point: No data

6) Initial boiling point or boiling range: 300~500℃

7) Flash point : 232°C (C.O.C)

8) Evaporation rate (BuAc=1): No data

9) Flammability(solid, gas): No data

10) Upper/lower flammability or explosive limits: No data

11) Vapor pressure : <0.1 Kpa @ 20℃

12) Solubility: No data

13) Vapor density: No data

14) Relative density: 0.88

15) Partition coeficient: n-octano/water: No data

16) Auto-ignition temperature: No data

17) Decomposition temperature: No data

18) Viscosity : 15 cSt(100°C)

19) Molecular weight: No data

# 10. Stability and Reactivity

1) Chemical stability:

- Stable at room temperature and pressure.

<ul><li>2) Toxicant generation possibility during reaction :</li><li>Not polymerization</li></ul>
<ul><li>3) Prohibited conditions:</li><li>- Avoid heat, sparks, open flames and other ignition sources</li></ul>
4) Prohibited materials: - An Oxidizing agent
5) Toxicant during decomposition : - Carbon oxides
11. Toxicological Information
A. Information on the likely routes of exposure
<ul> <li>Inhalation: May cause slight irritation</li> <li>Ingestion: May cause vomit, coughing, shortness of breath, dizziness.</li> <li>Skin contact: May cause slight skin irritation.</li> <li>Eye contact: May cause slight eye irritation.</li> </ul>
B. Delayed and immediate effects and chronic effectsfrom short or long term exposure
1) Distillates, Hydrotreated Heavy Paraffinic  Acute oral toxicity  Oral: LD50 > 5000mg/bw Rat  Dermal: LD50 > 5000mg/bw Rabbit  Inhalation: No data  Skin corrosion/irritation: Expected to be slightly irritating (Rabbit)  Serious eye damage/eye irritation: No irritating (Rabbit)  Respiratory sensitization: Not determined (guinea pig)  Skin sensitization: Not determined (guinea pig)  Carcinogenicity: MOL, OSHA, IARC: No data  Germ cell mutagenicity: Negative (Ames test)  Reproductive toxicity: No data  Specific target organ systemic toxicity(single exposure): No data  Specific target organ systemic toxicity(repeated exposure): No data  Aspiration hazard: No data
2) Residual oils (petroleum), solvent-dewaxed  Acute oral toxicity  Oral: LD50> 5000mg/kg (rat)  Dermal: LD50> 2000mg/kg (rabbit)  Skin corrosion/irritation: Expected to be slightly irritating (Rabbit)  Serious eye damage/eye irritation: No irritating (Rabbit)  Respiratory sensitization: Not determined (guinea pig)  Skin sensitization: Not determined (guinea pig)  Carcinogenicity: MOL, OSHA, IARC: No data  Germ cell mutagenicity: Negative (Ames test)  Reproductive toxicity: No data

#### 4) Others:

To the best of our knowledge, the information provided in this MSDS document is correct. Access to this information is being provided via the Internet so that it can be made available to as many potential users as possible. We do not assume any liability for consequences of the use of this information since it may be applied under conditions beyond our control or knowledge. Also, it is possible that additional data could be made available after this MSDS was issued.

Certain hazards are described herein, however these may not be the only hazards that exist. All materials may present unknown hazards and should be used with caution.

Customers are encouraged to review this information, follow precautions, and comply with all applicable laws and regulations regarding the use and disposal of this product. For specific technical data or advice concerning this product as supplied in your country please contact your local sales representative.
